School Supt's Report

Of the Town of Lincolnville, for the Year Ending 1915

To the S. S. Committee and Citizens of the Town of Lincolnville,
I respectfully submit to you my first annual report as Superintendent of Schools.

I feel that I am justified in saying that in a general way our schools for the past year have made marked improvements. If we found everything entirely satisfactory there would be no chance for effort toward further improvement, which we are trying hard to do every year.

Our teachers hired for the past year all held State Certificates with one exception.

Parental interest has been shown with both teachers and pupils which is greatly needed for the upbuilding of our schools, instead of opposition which many of our best teachers often find in trying to raise the standard of scholarship.

We also know that our school rooms are wanting in the apparatus necessary to carry out the best work, as we now have a very poor course of study to work from. I would suggest an entirely new course in order to keep our grade.

Libraries have been started in all our schools during the past year with many volumes.

The Youngtown school, last spring, through effort of teacher and pupils purchased a nice new chart with stand.

In closing I wish to thank the teachers for their faithful work, and all connected with the school work, for the honor and assistance rendered in discharge of my duties.
